

A2+ WIRELESS

WIRELESS COMPUTER SPEAKERS

AUDIOENGINE.COM

 **audioengine**

FEATURES

EPIC DESKTOP SETUP

The A2+ was designed and is hand-built with the goal of exceeding expectations of both value and performance. These small computer speakers really pack a punch, making them go-to system for desktop setups and smaller-room audio.

SMALL SPEAKERS, BIG SOUND

The A2+ Wireless Computer Speakers are constructed with custom Audioengine components: Aramid fiber woofers, silk tweeters, and built-in power amps wrapped in precision tuned, hand-crafted cabinets. The bass was teased from the A2+ with some clever acoustic and electrical design without using any digital signal processing or fake bass boost circuits.

SET UP IN SECONDS

SIMPLE. NO HASSLE. EASY TO USE.

No network to setup, passwords to create, buttons to push, and inputs are always ready to go.

TECH SPECS

Bluetooth receiver type 5.0 audio

Amplifier type: Dual class AB monolithic

Power output: 60W peak power total (15W RMS / 30W peak per channel), AES

Drivers: 2.75" Aramid fiber woofers, 3/4" silk dome tweeters

Inputs: 3.5mm stereo mini-jack, RCA, USB, Bluetooth

Outputs: RCA variable line-out

Input voltages: 110-240V 50/60Hz auto-switching

SNR: >95dB (typical A-weighted)

Freq. response: 65Hz-22kHz ± 2.0 dB

Bluetooth Audio: aptX, SBC, AAC

Input bit depth/sample rate: up to 16 bits native/48KHz native

Weight (both speakers): 6.7 lbs

Dimensions, each speaker (HWD): 6" x 4" x 5.25"
